Sudsies
Mr. Jason Loeb
12711 Biscayne Blvd
North Miami, FL 33181

Dear Jason,
Congratulations Sudsies is the FIRST 4 ½ half leaf Dry cleaner in the state of Florida.

The Green Cleaners Council preformed an in-depth analysis of your operating practices, from the front of the store to the back, including products, water use, electricity, energy conservation, hanger recycling to name just a few. The Green Cleaners Council's set of defined environmental benchmarks verified the information which confirmed the environmental sustainability for your business.

Sudsies was rated on your total commitment to environmental sustainability programs, responsible solvent use, recycling efforts, smart energy and water conservation as is practiced throughout their entire operation. Your evaluation was based on ECO Points associated with each issue. Again, The Green Cleaner Council is proud to inform you that Sudsies has earned the highest point level for any dry cleaner in the state of Florida.

Sudsies is recognized by the Green Cleaners Council as being a very proactive and responsible cleaner that goes above and beyond for the environment.

Sincerely,
Ann Hargrove
Green Cleaners Council
